

LASERNET

designed for the **LASERWASH® 4000**

Wondering what your wash volume was yesterday? The LaserNET system will send you Daily, Weekly, Monthly, and Yearly activity reports directly to your phone or computer – AUTOMATICALLY each day.

The LaserNET system provides carwash owner and operators direct access to wash activity, maintenance and alert information. LaserNet automatically sends the carwash's vital information to a cell phone or computer. LaserNet is also web-enabled to allow remote site management.

FEATURES

- Specifically designed for the ORIGINAL In-Bay – the Laserwash 4000.
- Instant access to wash activity, maintenance, and alert reports from your cell phone or computer.
- Fully customizable email.
 - Send Alerts to your cell phone.
 - Send the wash activity reports to your office.
- 3.5" LCD Touchscreen web-enabled computer.

BENEFITS

- Eliminates the analog pager – consolidates all of your wash information to your cell phone.
- Eliminates dependence upon printer – printer can be eliminated.
 - Fully configurable to select what you want printed, emailed or both.
- Instant access to information – minimize the amount of traveling to the site.
- Plug-n-Play installation.
